## SUMMARY

Strongly self-driven and fast-learning IT undergraduate from SLIIT, specializing in Information Technology. Solid foundation in full-stack development, DevOps practices, version control, and basic systems and network concepts. Experienced in MERN Stack, Python, React, Docker, and Git. Recognized for being adaptive, analytical, and an active problem-solver. Proficient in collaborative environments with strong communication, time management, and project coordination skills. Passionate about designing effective, technology-driven, user-focused solutions. Currently seeking an internship opportunity to gain hands-on experience and contribute meaningfully to real-world IT projects.

## EDUCATION

**BSc (Hons) in Information Technology** – Specializing in Information Technology

**Sri Lanka Institute of Information Technology (SLIIT)**

Colombo, Sri Lanka

**Third Year Undergraduate | Expected Graduation: [December 2026]**

## TECHNICAL SKILLS

MERN Stack	Spring Boot	Git
Python	React	MySQL
HTML	Linux	MongoDB
CSS	Docker	Android Studio
Java Script	AWS	Kotlin

## SOFT SKILLS & INTERESTS

Agile & DevOps mindset	Clear technical communication
Analytical problem-solving	UI/UX and responsive design
Fast learner of new tech	Cloud & AI enthusiast

## KEY PROJECTS

- **Handmade Goods E-Commerce Web App** - Developed a full-stack application for browsing and purchasing handmade items. **(MongoDB, Express.js, React, Node.js)** — Group Project
- **AI-Powered Portfolio Web Application** - Developed an AI-powered portfolio web application to showcase projects and skills interactively. **(Python, Flask, HTML, CSS, JavaScript)** — Individual Project
- **To-Do App (Android)** - Built an Android To-Do app with task management and reminder features. **(Kotlin, Android Studio)** — Individual Project
- **Smart Academic Scheduler** - Developed a Smart Academic Scheduler to automate timetable planning and optimize study routines. **(MERN Stack, Tensorflow)** — Group Project
- **Skill Sharing Platform** - Built a Skill Sharing Platform using React, Spring Boot, and MongoDB to connect learners with skill mentors. **Tools: React, Spring Boot** — Group Project

## ADDITIONAL INFORMATION

**Languages:** English, Sinhala

**Certifications:** Getting Started with Docker - simplilearn, Trainee – Full Stack Developer (InProgress)University of Moratuwa – UOM Online Courses Platform, 2025
